NEWSLETTER

FROM THE PRINCIPAL'S DESK

Technical Education, in particular, needs to prepare the individual with knowledge, skills, qualities, values, attitudes and abilities to communicate effectively and work together productively with others. In the present era of globalisation and liberalisation, technical education is amongst the key enablers of growth for transforming a nation's economy. As quoted by Henry Ford:

Henry Ford — *“Coming together is the beginning. Keeping together is progress. Working together is success.”*

Our institution aims at imparting quality education and make our students well versed with theoretical and practical concepts. We show technology and motivate students to focus on practical work. Labs are workshops are research oriented. The institution strives to focus on the holistic development of the students so as to empower them not only to become technical expert but also to be the responsible and ideal citizens for the health growth of society.

VISION

Be a centre of excellence to produce highly competent technical manpower to match the dynamic environment of the global market, offering services to the industry and community, thereby, ensuring a place for India in the select brand of developed countries.

MISSION

- To strengthen the linkage between the industry and institute for improving the teaching learning process.
- To supplement infrastructural facilities in the institution as per changing needs.
- To modernize the labs and workshops with latest machinery and equipment.
- To generate internal revenue by optimum utilization of resources so as to contribute in the direction of self-sustaining system.
- To create enabling environment for better teaching learning by providing latest state of art facility.
- To improve the efficiency and effectiveness of the institution through participative
